

Academica International Studies

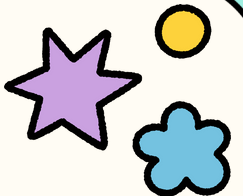

GET STARTED

Research colleges of interest. Take a look at the academic programs each school offers, the financial responsibilities (example: tuition, cost of living, etc.), and location. Make your list of your top 3–5 schools.

Not sure where to start? Check out <https://bigfuture.collegeboard.org/> to get some ideas.

Check the admissions page for each of your ideal schools to see their respective admission requirements.

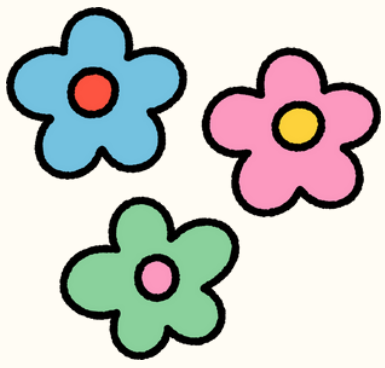

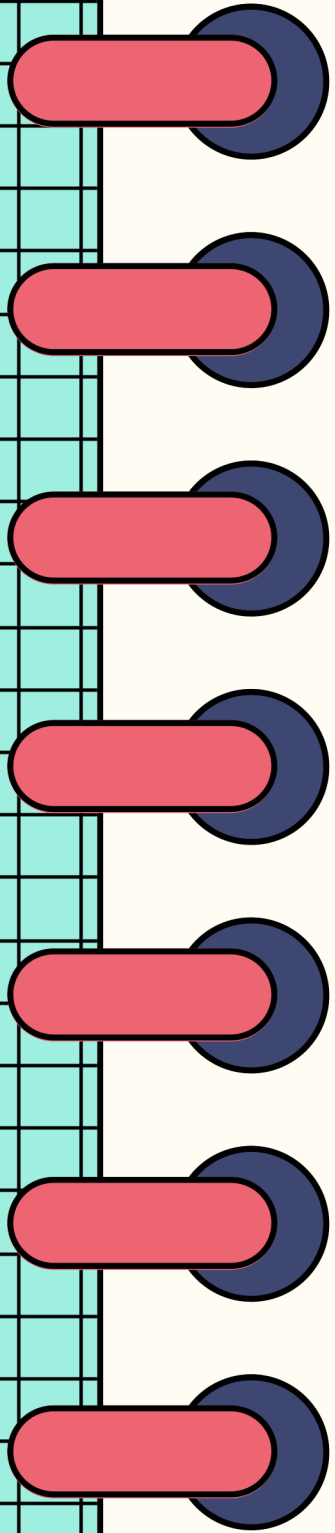

Many colleges have a separate page for International Students.

Things to take note of include:

What are the minimum academic requirements?

- Does the college require applicants take the SAT/ACT and TOEFL?
- When is the application for this school due?
- What method does the school require users to submit the application?
- How much does the application cost?

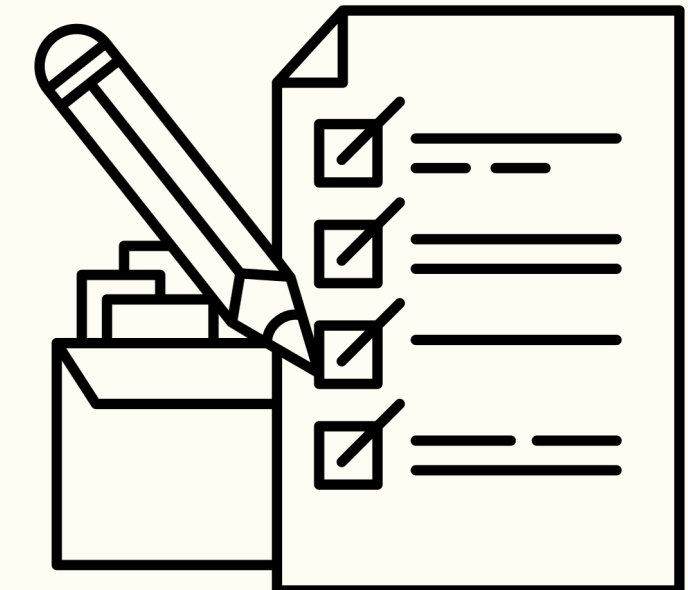

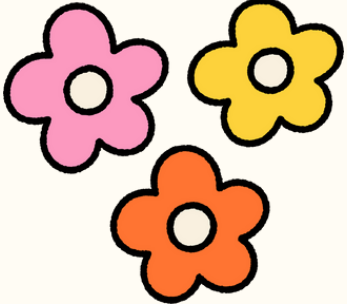

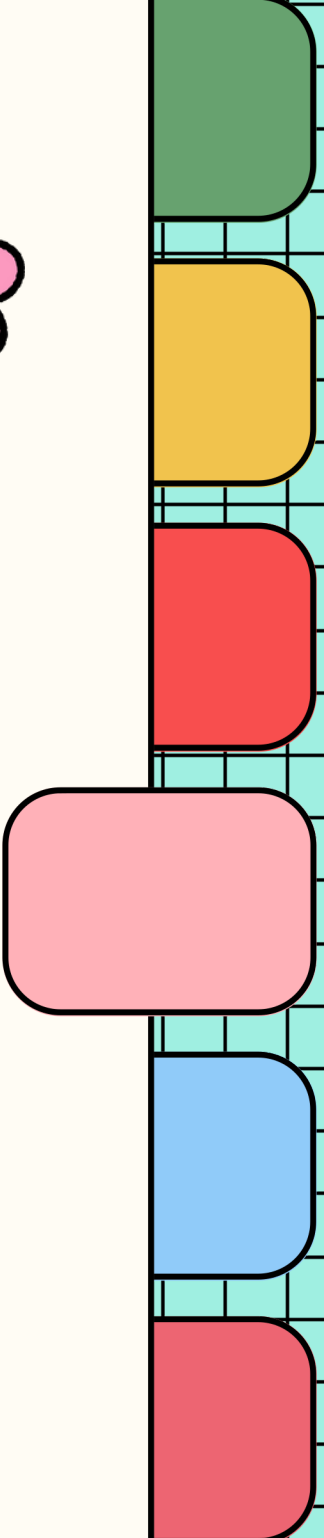

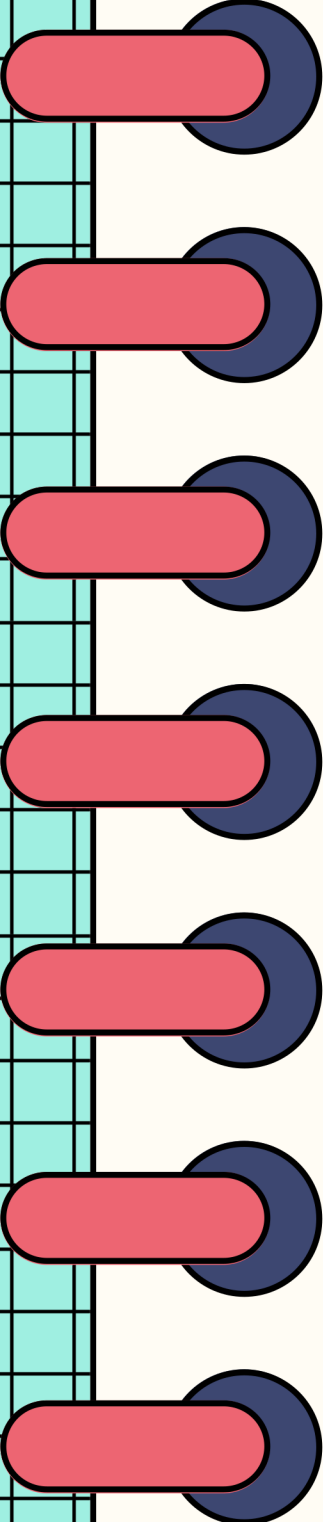

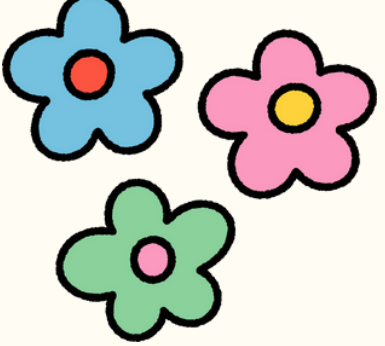

MAKE PLAN

Begin preparing your application documents such as your essays, letters of recommendations, CV/resume, etc. Keep a folder on your device to keep track of your work and stay organized.

Use a calendar and/or planner to make sure that you have all items completed ahead of time.

Decide on if you will take the SAT, ACT, or both. Register for the exam(s) in advance to receive your scores on time.

If still needed, be sure to take exams no later than October of your senior year (last year of High School). Give yourself plenty of time to study before the test!

Take the exam(s). If time permits, you can review the scores before choosing which one you want to send to your schools of choice. Or you can choose to send the scores directly to each of your selected schools.

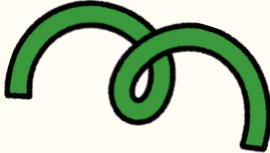

Continue working on the application documents, pay the application fees, and submit before the deadline!

STAY FOCUSED

Continue to do well and stay focused on your current academic goals at school and with AIS.

Remember to keep your grades up from your home country high school and your AIS courses.

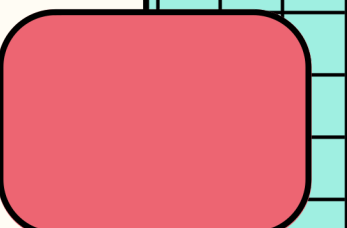

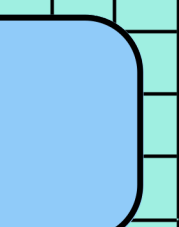

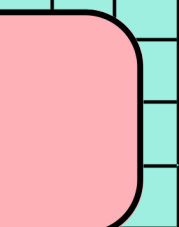

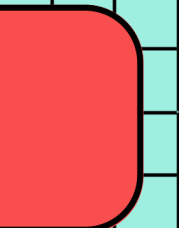

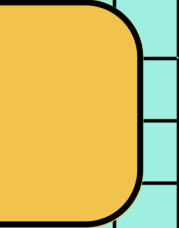

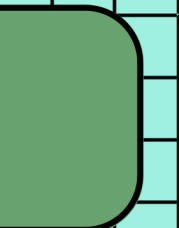

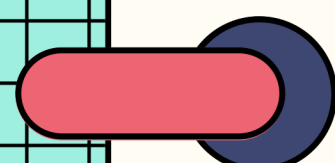

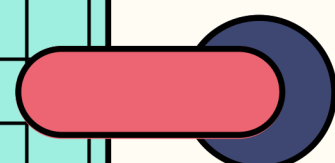

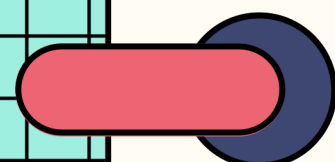

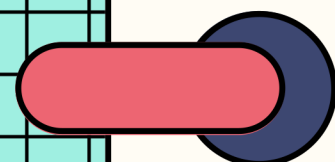

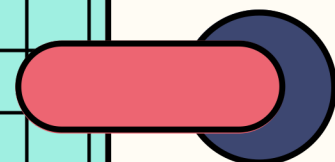

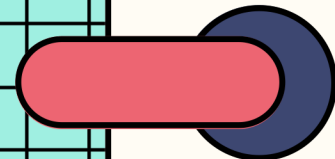

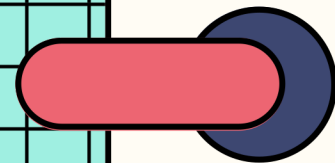

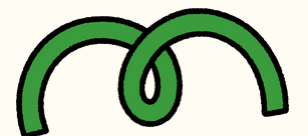

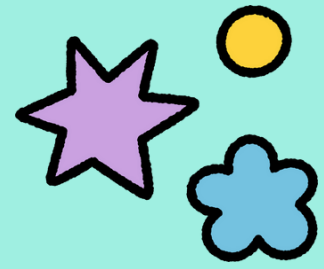

WORK
HARD

THE FUTURE IS BRIGHT

Receive your answer(s) from the schools and make a decision!
Let us know what you decide and keep in touch in our alumni network!
